Our Products

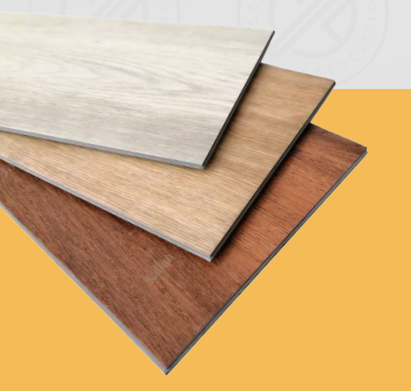

Hardwood

Hardwood flooring is durable, beautiful, and adds warmth to any space. Available in various styles and finishes, it offers versatile design options. It can be refinished multiple times, ensuring longevity and adding lasting value to homes or businesses.

Engineered Wood

Engineered wood flooring has a hardwood veneer over layered wood, offering stability and temperature resistance. Suitable for various subfloors, including basements, it allows easy floating installation and combines beauty with durability.

LVT (Luxury Vinyl Tiles)

Luxury Vinyl Tiles (LVT) mimic wood, stone, or ceramic with durable, water-resistant layers. Easy to maintain and install, often with a click system, LVT offers versatile designs for homes and businesses, combining style, durability, and affordability.

Highlighted Collection Versailles

Elevate your designs with our exclusive Versailles Collection, a curated selection of premium flooring options that blend luxury with lasting performance.

Choose from:

20/4x800 Engineered Wood

Bold, expansive elegance

15/4x600 Engineered Wood

FAQ

1 - Where are your products made?

Most of our products are manufactured in the UK, ensuring high standards of quality and faster delivery. For specific needs, we also offer access to premium imported materials.

2 - How do Discounts and Cashback work?

We offer two flexible options:

- **Discounts:** Reduce costs upfront on your purchase.
- **Cashback:** Earn up to **10% cashback** on your total order value, depending on the project size and client tier.

This allows you to choose the financial model that works best for your project.

3 - How does the Progressive Cashback system work?

Our cashback grows with your project size:

- **4%** cashback for projects under **£10k**
- **6%** cashback for projects over **£10k**
- **8%** cashback for projects over **£20k**
- **10%** cashback for projects over **£50k**

The bigger the project, the higher the reward.

4 - What size of projects can you handle?

With **5 dedicated teams** of 2-3 skilled professionals each, we can handle projects of any size. For larger, time-sensitive jobs, we assign multiple teams to meet your deadlines.

5 - How fast can you complete a project?

- **Material Supply:** In-stock materials are delivered within **2 business days**. Bespoke and imported materials may take up to **2 weeks**.
- **Installation:** Projects are scheduled within **2-3 weeks** of signing the contract. For urgent needs, we offer **priority scheduling** with completion possible in as little as **7 days**.

6 - What is your team's experience and expertise?

With over **20+ years of industry experience** from our founders alone, our team undergoes a **3-year intensive training programme**. We've also worked on large-scale projects for industry leaders like **Tapi Carpets & Flooring**, ensuring unmatched expertise.

7 - What kind of surface preparation is needed?

Depending on your flooring choice, your subfloor may require:

- **Plywood installation** (for certain wood-based floors)
- **Self-levelling compound** (for LVT, vinyl, and some engineered wood)

Our project manager assesses your site and ensures the correct method is used before installation begins.

8 - How much does surface preparation cost?

Subfloor preparation costs typically range from **£20/m² to £50/m²**, depending on the method required and site conditions. The exact price is confirmed by our project manager after a site assessment.
